SWING PATIO DOORS

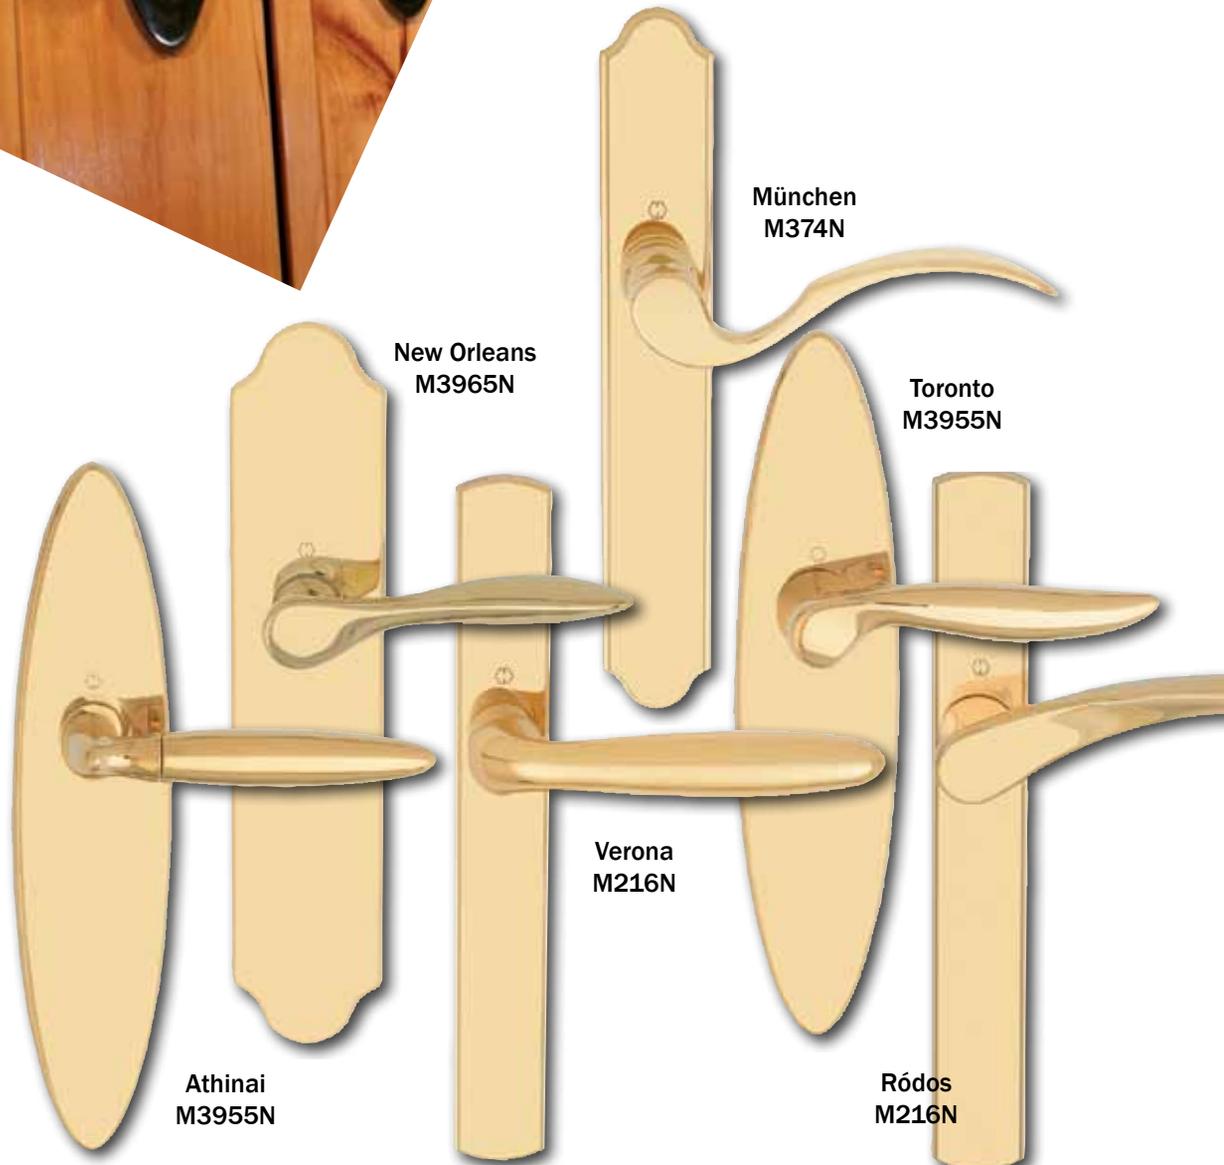

Handles & Backplates

Take the customization of your swing doors to another level with six handle options and four choices of backplates. Our standard handle set is the München with M374N Backplate, but you now have the option of mixing and matching the five additional handle sets and three new backplate styles to create a door design that's truly inspiring. Available handles include, the München (standard), Athinai, Ródos, Toronto, Verona, and New Orleans. The four backplate options include M374N (standard), M3955N, M216N, and M3965N.

Not all handles can be combined with all backplates. See the Options Chart for available combinations.

Finishes

Our handles are manufactured using the finest quality brass alloys. The surface of the handle, except Oil-Rubbed, is protected by a transparent enamel finish which offers strength and durability as well as a smooth, blemish free surface. Oil-Rubbed has a “live” finish that changes over time. Choose from a selection of ten popular finishes, including Polished Brass (standard), Antique Brass, Oil-Rubbed Brass, Matte Black, Satin Nickel, Antique Nickel, Rustic Umber, Polished Chrome, Brushed Chrome, and White.

Finishes for the Athinai handle set are limited. See the Options Chart for available finishes. Split-finish handle sets (backplate and base of handle are first finish and end of handle is second finish) of Polished Brass/Brushed Brass and Polished Chrome/Brushed Stainless Steel are not shown but are also available.

Handle Sets

Want a handle set that will make your patio door extraordinary? HOPPE® bronze will do just that. Each handle set has a “live” finish that changes over time. To achieve this unique finish, the cast bronze alloy is tumbled in rocks and water and given a patina finish through oxidation and hand-rubbed with oils and waxes.
